"Let your light shine"

As we arrive at February, I noticed over the weekend that the days are slowly starting to get longer, which we all know has an impact on our own well-being. This week is National Mental Health Week (with our E-Safety and Mental Health parents meeting taking place next week), and the focus is on 'Know Yourself, Grow Yourself'. Each class this week will explore what is meant by the term mental health and how we can ensure that we all have good mental health, in the same way we want our physical bodies to be well.

Place2Be has a number of resources that parents and carers may find useful and can be found by following the link

Miss Cullen, Head Teacher

What were we all doing at 11.30am?

At 11.30am, Carle Class were outside, wrapped up in coats, climbing and playing. Miss Fearn said they have worked hard so far today and are looking forward to doing some Science experiments about "changing" this week. They will be watching a candle melt and cakes rise! Reception will be looking at numbers 6, 7 and 8 this week.

Donaldson Class were dancing in hall, with Miss Barton setting the mood with a variety of different musical instruments. Dahl Class were doing some tricky Maths, where they looked at different ways to help their times tables understanding. Over in Simon Class, the children were looking at an illustration to prompt them to use verbs and describing words in their writing.

Wilde Class had a special visitor from "Change Makers" at Rugby Borough Council. They were learning more about healthy eating.

You could hear a pin drop in Year 6, as they were having a go at re-writing diary entries, changing from another persons perspective to their own.

Children order as normal on the day. Jacket Potato is still an option on World Book Day.

Miss Cullen's Recommended Reads

Late nights, addictive technology and minds racing with exam stress and friendship worries: it's no wonder the teenage stereotype is tired eyes and sleeping through the weekend. Just like adults, teenagers are sleeping less now than ever before, yet sleep is crucial to our health and well-being. Internationally renowned expert on the teenage brain, Nicola Morgan, tackles this essential subject - asking why teenagers so desperately need a good night's sleep, exploring what a lack of sleep does to their developing brains, and explaining how to have the best sleep possible.

Even though you might be small, if you just believe, you could be anything at all! What do you want to be when you grow up? A pirate or a dinosaur hunter, an engineer or a doctor? Through dressing up and imaginary play, there's nothing these four best friends can't be.
